

PRELIMINARY PROGRAM WoCoVA 2018

WEDNESDAY 20 June 2018

| General Hall (1000) (ground floor) | | | Vandsalen (400) (ground floor) | | | Carstensen (400) (lower floor) | | |
|--|------|--|--|--------------|------|--|-------------------------|--|
| 09:30 - 10:00 | | Opening remarks | Ton Van Boxtel (NL) | | | | | |
| 10:00 - 11:00 | I-01 | Keynote address | Didier Pittet (CH) | | | | | |
| Session | | | | | | | | |
| Plenary Session 1: The patient and the bundles | | | | | | | | |
| 11:00 - 11:45 | I-02 | Patient first: do we consider the patient in our insertion bundles ? (panel discussion) | Chair: Claire Rickard (AU) Evan Alexandrou (AU), Nancy Moureau (US), Liz Simcock (UK) | | | | | |
| 11:45 - 12:30 | I-03 | Patient first: do we consider the patient in our maintenance bundles ? (panel discussion) | Chair: Ton van Boxtel (NL), Josie Stone (US), Kathy Kokotis (US), Samantha Keogh (AU) | | | | | |
| 12:30 - 13:00 | | break | | | | | | |
| 13:00 - 14:00 | | satellite symposium | satellite symposium | | | satellite symposium | | |
| 14:00 - 14:30 | | break | | | | | | |
| Session | | | | | | | | |
| 1 - Minimizing the risk of thrombosis | | | 2 - The newborn | | | 3 - The patient in ICU | | |
| Chair: Andrew Bulmer (AU) | | | Chair: Agnes van den Hoogen (NL) | | | Chair: Paul Blackburn (US) | | |
| 14:30 - 15:00 | I-04 | Catheter to vein ratio today | Rebecca Sharp (AU) | | I-06 | A new approach to umbilical and to epicutaneo-caval catheters | Giovanni Barone (IT) | |
| 15:00 - 15:30 | I-05 | A patient oriented approach to management of venous thrombosis | Sergio Bertoglio (IT) | | I-07 | Ultrasound guided CICC in neonates | Christian Breschan (AT) | |
| 15:30 - 15:45 | O-01 | abstract 1.1 | | | | | | |
| 15:45 - 16:00 | O-02 | abstract 1.2 | | | | | | |
| 16:00 - 16:30 | | break | | | | | | |
| Session | | | | | | | | |
| 4 - The patient with a peripheral venous access | | | 5 - Minimizing occlusions: flush & lock policies | | | 6 - Indications and advantages of tunneling | | |
| Chair: Josie Stone (US) | | | Chair: Samantha Keogh (AU) | | | Chair: Daniele Biasucci (IT) | | |
| 16:30 - 17:00 | I-10 | PIV bundles for preventing complications | Claire Rickard (AU) | | I-12 | The science of flushing | Andrew Bulmer (AU) | |
| 17:00 - 17:30 | I-11 | PIV, mini-midlines and midline catheters: towards a common terminology | Giancarlo Scoppettuolo (IT) | | I-13 | Goodbye, heparin ! | Sergio Bertoglio (IT) | |
| 17:30 - 17:45 | O-07 | abstract 4.1 | | | | | | |
| 17:45 - 18:00 | O-08 | abstract 4.2 | | | | | | |
| | | | O-09 | abstract 5.1 | O-11 | abstract 6.1 | | |
| | | | O-10 | abstract 5.2 | O-12 | abstract 6.2 | | |

THURSDAY 21 June 2018

| General Hall (1000) (ground floor) | | | Vandsalen (400) (ground floor) | | | Carstensen (400) (lower floor) | | |
|--|------|--|---|---------------|------|--|-----------------------------|--|
| Session | | | | | | | | |
| Plenary Session 2: Do guidelines consider the patient? | | | | | | | | |
| 08:30 - 09:10 | I-16 | The patient in the INS standards of practice | Mary Alexander (US) | | | | | |
| 09:10 - 09:50 | I-17 | The patient in the CDC guidelines | Naomi O'Grady (US) | | | | | |
| 09:50 - 10:30 | I-18 | tba | t.b.a | | | | | |
| 10:30 - 11:00 | | break | | | | | | |
| Session | | | | | | | | |
| 7 - Minimizing dislodgement | | | 8 - The child and the Venous Access Device | | | 9 - The patient who needs dialysis, apheresis and ultrafiltration | | |
| Chair: Giancarlo Scoppettuolo (IT) | | | Chair: Daniele Biasucci (IT) | | | Chair: Kasper Jepsen (DK) | | |
| 11:00 - 11:30 | I-19 | Securement of PIV | Nicole Marsh (AU) | | I-21 | The increasing role of ultrasound guided PICCs in children | Nicola Disma (UK) | |
| 11:30 - 12:00 | I-20 | Securement of PICC, FICC and CICC | Liz Simcock (UK) | | I-22 | Catheter securement and catheter dressing in pediatric patients | Tricia Kleidon (AU) | |
| 12:00 - 12:15 | O-13 | abstract 7.1 | | | | | | |
| 12:15 - 12:30 | O-14 | abstract 7.2 | | | | | | |
| 12:30 - 13:00 | | break | | | | | | |
| 13:00 - 14:00 | | satellite symposium | satellite symposium | | | satellite symposium | | |
| 14:00 - 14:30 | | break | | | | | | |
| Session | | | | | | | | |
| 10 - The patient and the PICC: minimizing complications | | | 11 - Minimizing intraluminal contamination | | | 12 - The material of the devices | | |
| Chair: Karin Johansson (SE) | | | Chair: Marguerite Stas (BE) | | | Chair: Kathy Kokotis (US) | | |
| 14:30 - 15:00 | I-25 | The state of the art of PICC insertion | Ton van Boxtel (NL) | | I-27 | The role of the antibacterial lock | Marcia Ryder (US) | |
| 15:00 - 15:30 | I-26 | Choosing the most appropriate PICC, in the patient's interest | Tricia Kleidon (AU) | | I-28 | Needle free connectors, port protectors and infection risk today | Giancarlo Scoppettuolo (IT) | |
| 15:30 - 15:45 | O-19 | abstract 10.1 | | | | | | |
| | | | O-21 | abstract 11.1 | O-23 | abstract 12.1 | | |

| | | General Hall (1000) (ground floor) | | Vandsalen (400) (ground floor) | | Carstensen (400) (lower floor) | | | |
|---------------|------|---|---------------|--|---|---|---------------|---|--|
| 15:45 - 16:00 | | O-20 | abstract 10.2 | O-22 | abstract 11.2 | O-24 | abstract 12.2 | | |
| 16:00 - 16:30 | | | break | | | | | | |
| Session | | 13 - The patient and the choice of the device Chair: Russell Nassof (US) | | 14 - Tip navigation Chair: Ulf Teichgräber (DE) | | 15 - Indications and advantages of glue Chair: Nicole Marsh (AU) | | | |
| 16:30 - 16:45 | I-31 | The Magic Paper: Do you believe in magic? (point-counterpoint) Nancy Moureau (US) vs. Mauro Pittiruti (IT) | | I-33 | Ultrasound for tip navigation Daniele Biasucci (IT) | | I-35 | Glue for skin closure and catheter Marcia Wise (US) | |
| 16:45 - 17:00 | | | | I-34 | Electromagnetic methods for tip navigation: which evidence? Antonio LaGreca (IT) | | I-36 | Glue for avoidance of bleeding and bacterial contamination Gloria Ortiz Miluy (ES) | |
| 17:00 - 17:15 | | | | O-25 | abstract 14.1 | | O-27 | abstract 15.1 | |
| 17:15 - 17:30 | I-32 | The role of the patient in choosing the device (panel discussion) Nancy Moureau (US) | | O-26 | abstract 14.2 | | O-28 | abstract 15.2 | |
| 17:30 - 17:45 | | Kathy Kokotis (US) | | | | | | | |
| 17:45 - 18:00 | | Karin Johansson (SE) | | | | | | | |

FRIDAY 22 June 2018

| | | General Hall (1000) (ground floor) | | Vandsalen (400) (ground floor) | | Carstensen (400) (lower floor) | | | |
|---------------|------|---|--|---|---|---|------|---|--|
| Session | | 16 - The patient and the CICC: minimizing complications Chair: Antonio LaGreca (IT) | | 17 - The patient and the dressing of the exit site Chair: Carmel Streater (UK) | | 18 - The patient and the totally implantable venous access device Chair: Christian Dupont (FR) | | | |
| 08:30 - 09:00 | I-37 | The state of the art of CICC insertion Jack LeDonne (US) | | I-40 | The risk of skin lesions in the adult patient Gaston Cartagena (US) | | I-43 | The state of the art of port insertion Ulf Teichgräber (DE) | |
| 09:00 - 09:30 | I-38 | A new approach to CICC: the ZIM Mauro Pittiruti (IT) | | I-41 | Skin lesions in children and neonates Tricia Kleidon (AU) | | I-44 | PICC-port today Evangelos Konstantinou (GR) | |
| 09:30 - 10:00 | I-39 | Intraclavicular approach in 2018: ultrasound access to the axillary vein Massimo Lamperti (AE) | | I-42 | Different transparent dressings, different problems Nicole Marsh (AU) | | I-45 | Goodbye, fluoroscopy! Fulvio Pinelli (IT) | |
| 10:00 - 10:15 | O-29 | abstract 16.1 | | O-31 | abstract 17.1 | | O-33 | abstract 18.1 | |
| 10:15 - 10:30 | O-30 | abstract 16.2 | | O-32 | abstract 17.2 | | O-34 | abstract 18.2 | |
| 10:30 - 11:00 | | break | | | | | | | |
| Session | | 19 - Minimizing extraluminal contamination Chair: Fredrik Hammarskjöld (SE) | | 20 - Tip location Chair: Ken Symington (US) | | 21 - FICC - femorally inserted central catheters Chair: Evan Alexandrou (AU) | | | |
| 11:00 - 11:30 | I-46 | Skin antisepsis in 2018: the central role of chlorhexidine in alcohol Giancarlo Scoppettuolo (IT) | | I-48 | Intracavitary ECG in 2018 Antonio LaGreca (IT) | | I-50 | FICC: materials and insertion technique Matthew Ostroff (US) | |
| 11:30 - 12:00 | I-47 | The importance of choosing the exit site Nancy Moureau (US) | | I-49 | Ultrasound for tip location in adults, children and neonates Massimo Lamperti (AE) | | I-51 | Which patients will benefit of a FICC? Sergio Bertoglio (IT) | |
| 12:00 - 12:15 | O-35 | abstract 19.1 | | O-37 | abstract 20.1 | | O-39 | abstract 21.1 | |
| 12:15 - 12:30 | O-36 | abstract 19.2 | | O-38 | abstract 20.2 | | O-40 | abstract 21.2 | |
| 12:30 - 13:00 | | break | | | | | | | |
| 13:00 - 14:00 | | satellite symposium | | | satellite symposium | | | satellite symposium | |
| 14:00 - 14:30 | | break | | | | | | | |
| Session | | 22 - RCTs and meta-analysis today Chair: Massimo Lamperti (AE) | | 23 - The rare but 'difficult' complication Chair: Mauro Pittiruti (IT) | | 24 - Ultrasound approach to the patient and to the device Chair: Jiri Charvat (CZ) | | | |
| 14:30 - 15:00 | I-52 | Do Cochrane documents and other evidence-based documents consider the patient? (panel discussion) Fredrik Hammarskjöld (SE), Peter Carr (AU), Marcia Ryder (US), Claire Rickard (AU) | | I-53 | The catheter malfunction due to a fibroblastic sleeve Antonio LaGreca (IT) | | I-55 | Patients assessment by ultrasound: RaCeVA and RaPeVA Fulvio Pinelli (IT) | |
| 15:00 - 15:30 | | | | I-54 | The PICC that does not come out Liz Simcock (UK) | | I-56 | Ultrasound detection of early and late complications Daniele Biasucci (IT) | |
| Session | | Planary Session 3: The World Perspective Chair: Ton Van Boxtel (NL) | | | | | | | |
| 15:30 - 16:15 | I-57 | Protecting the patient: a multiprofessional, multidisciplinary, international goal (panel discussion) Russel Nassof (US), Christian Dupont (FR), Jiri Charvat (CZ), Fredrik Hammarskjöld (SE), Rui Casaca (PT), Kasper Jeppen (DK) | | | | | | | |
| 16:15 - 16:30 | | Closing remarks Ton van Boxtel (NL) | | | | | | | |
