

PROGRAM WoCoVA 2018

WEDNESDAY 20 June 2018

General Hall (1000) (ground floor)			Vandsalen (400) (ground floor)			Carstensen (400) (lower floor)		
08:30 - 10:00		Opening remarks	Ton Van Bortel (NL)					
10:00 - 11:00	I-01	Keynote address: Past, current and future challenges in infection control: from local to global actions	Didier Pittet (CH)					
Session								
11:00 - 11:45	I-02	Plenary Session 1: The patient and the bundles	Chair: Claire Rickard (AU) Evan Alexandrou (AU), Nancy Molyneux (US), Liz Simcock (GB)					
11:45 - 12:30	I-03	Patient first: do we consider the patient in our maintenance bundles? (panel discussion)	Chair: Ton van Bortel (NL), Josie Stone (US), Kathy Kokotis (US), Samantha Keogh (AU)					
12:30 - 13:00	break							
13:00 - 14:00	sponsored satellite symposium Patient Safety: Creating Meaningful Change in High Variability Environments		3M		sponsored satellite symposium Best Practices in Vascular Access Management - A Proven Approach to Improving Patient Care		BD	
14:00 - 14:30	break							
Session								
14:30 - 15:00	I-04	1 - Minimizing the risk of thrombosis	Chair: Andrew Bulmer (AU)			2 - The newborn Chair: Agnes van den Hoogen (NL)		
15:00 - 15:30	I-05	Catheter to vein ratio today	Mauro Pittiruti (IT)			I-06 A new approach to umbilical and to epicutaneous-caval catheters Chair: Giovanni Barone (IT)		
15:30 - 15:45	O-01	A patient oriented approach to management of venous thrombosis	Sergio Bertoglio (IT)			I-07 Ultrasound guided CICC's in neonates Chair: Christian Breschan (AT)		
15:45 - 16:00	O-02	Brazilian experience 2017: PIVC-related thrombosis	Telma Christina Silva (BR)			O-03 Exploring the Use of Extended Dwell Peripheral Intravenous Catheters in the Newborn Intensive Care Chair: Jessica Marchetti (US)		
16:00 - 16:30	break							
16:30 - 17:00	I-10	Reducing catheter-related thrombosis using a risk reduction tool centered on catheter to vessel ratio	Tim Spencer (US)			O-04 The optimal electrocardiogram P/R amplitude ratio of intracavitary electrocardiogram (IC-ECG) method for positioning the tip of PIVC in neonates: results of a cohort study Chair: Jinai He (CN)		
17:00 - 17:30	I-11	4 - The patient with a peripheral venous access	Chair: Josie Stone (US)			I-12 PIVC bundles for preventing complications Chair: Claire Rickard (AU)		
17:30 - 17:45	O-07	PIV bundles for preventing complications	Claire Rickard (AU)			I-13 Goodbye, heparin! Chair: Sergio Bertoglio (IT)		
17:45 - 18:00	O-08	PIV, mini-midlines and midline catheters: towards a common terminology	Giancarlo Scoppettuolo (IT)			O-09 Prospective audit to study synerkinase use to restore patency in occluded central venous catheters in haematology and oncology patients - interim results from a multicentre study Chair: Andrew Jackson (GB)		
18:00 - 19:00	Welcome Reception							

THURSDAY 21 June 2018

General Hall (1000) (ground floor)			Vandsalen (400) (ground floor)			Carstensen (400) (lower floor)			Ballonsalen/Biomstersalen (280) (ground floor)			
Plenary Session 2: Do guidelines consider the patient?												
Chair: Josie Stone												
08:30 - 09:10	I-16	The patient in the INS standards of practice	Mary Alexander (US)									
09:10 - 09:50	I-17	The patient in the CDC guidelines	Naomi O'Grady (US)									
09:50 - 10:30	I-18	The patient in the British guidelines	Andy Bodenham (GB)									
10:30 - 11:00	Poster session of uneven poster numbers during break											
Session												
11:00 - 11:30	I-19	7 - Minimizing dislodgement	Chair: Giancarlo Scoppettuolo (IT)			8 - The child and the Venous Access Device Chair: Daniele Biasucci (IT)			9 - The patient who needs dialysis, apheresis and ultrafiltration Chair: Kasper Jepsen (DK)			
11:30 - 12:00	I-20	Securement of PIV	Nicole Marsh (AU)			I-21 The increasing role of ultrasound guided PICCs in children Chair: Nicola Disma (GB)			PP-01 Poster pitches. Posters P003, P011, P012, P015, P025, P029, P037, P043, P048, P058 Chair: Josie Stone (US)			
12:00 - 12:15	O-13	Securement of PICC, FICC and CICC	Liz Simcock (GB)			I-22 Catheter securement and catheter dressing in pediatric patients Chair: Tricia Kleidon (AU)			V-01 Video session Chair: Peter Carr (AU), Jack LeDonne (US)			
12:15 - 12:30	O-14	PICC migration - a problem of the past: Cross-sectional and health-economic comparison of Adhesive and Subcutaneous Engineered Stabilization Devices for Securing PICCs	Dympha McParlan (GB)			O-15 Implementation of a difficult venous access (DIVA) pathway Chair: Evan Alexandrou (AU)			O-17 Be a lion and 'R.O.A.R.' to save the veins (and the lives) of children with kidney disease Chair: Rowena Lalji (GB)			
12:30 - 13:00	Poster session of uneven poster numbers during break											
13:00 - 14:00	sponsored satellite symposium Suture-less central venous fixation - The time is now		Rihard Knafelj (SI)		O-16 Impact of a dedicated vascular access and infusion therapy team on the reduction of central line-associated bloodstream infections in pediatric patients Chair: Ricardo Zimmerman (BR)		O-18 Endovascular Treatment of Central Venous Stenosis and Occlusion: Vascular Access for Hemodialysis Chair: Demet Unal (TR)		sponsored satellite symposium Needless Connectors: More Science Behind Bacterial Transfer! Chair: ICU Medical		sponsored satellite symposium Advancing Peripheral Intravenous Vascular Access - Opportunities and Early Experience with Closed System Catheters Chair: Smiths Medical	
14:00 - 14:30	break											
Session												
10 - The patient and the PICC: minimizing complications Chair: Karin Johansson (SE)			11 - Minimizing intraluminal contamination Chair: Marguerite Stas (BE)			12 - The material of the devices Chair: Kathy Kokotis (US)						

14:30 - 15:00	I-25	The state of the art of PICC insertion	Ton van Bortel (NL)
15:00 - 15:30	I-26	Choosing the most appropriate PICC, in the patient's interest	Tricia Kleidon (AU)
15:30 - 15:45	O-19	Clinical outcomes related to over the wire catheter exchange in PICC reinsertion	Adam Suleman (CA)
15:45 - 16:00	O-20	Use of peripherally inserted central line (PICC) in a tertiary care cancer centre in India	Meere Sharad (IN)
16:00 - 16:30	break		

I-27	The role of the antibacterial lock	Marcia Ryder (US)
I-28	Needle free connectors, port protectors and infection risk today	Giancarlo Scoppettuolo (IT)
O-21	30% ethanol - an effective and safe catheter lock solution	Nisha Gupta (US)
O-22	CVAD lock solutions: the debate, the triple threat and the solution	Jocelyn Hill (CA)

I-29	New and old materials with antibacterial or antithrombotic action	Samantha Keogh (AU)
I-30	Silicon vs polyurethane in 2018	Mauro Pittiruti (IT)
O-23	A cost effectiveness analysis of BioFlo® compared to PowerPICC Solo® peripherally inserted central catheters: The Ottawa Hospital evaluation	Sheryl McDiarmid (CA)
O-24	Mid-clavicular lines, a safe option: 4-years experience	Victoria Armenteros-Yeguas (ES)

PP-02 Poster pitches. Posters P062, P068, P075, P110, P116, Chair: Ken Symington (US)
P127, P145, P148, P161

Session	13 - The patient and the choice of the device	Chair: Russell Nassof (US)
16:30 - 16:45	I-31	The Magic Paper: Do you believe in magic? (point-counterpoint)
16:45 - 17:00		Nancy Moureau (US) vs. Mauro Pittiruti (IT)
17:00 - 17:15		
17:15 - 17:30	I-32	The role of the patient in choosing the device (panel discussion)
17:30 - 17:45		Nancy Moureau (US)
17:45 - 18:00		Kathy Kokotis (US) Karin Johansson (SE)

Session	14 - Tip navigation	Chair: Ulf Teichgräber (DE)
I-33	Ultrasound for tip navigation	Daniele Biasucci (IT)
I-34	Electromagnetic methods for tip navigation: which evidence?	Antonio LaGreca (IT)
O-25	Empathy, the human technology	Mercedes Carrillo Arahuetes (ES)
O-26	Three types of Peripheral Intravenous Catheter Failure happening in hospital right now; 1: failure to appropriately use; 2: failure to insert on the first attempt and 3: post insertion failure	Peter Carr (AU)

Session	15 - Indications and advantages of glue	Chair: Nicole Marsh (AU)
I-35	Tissue Adhesive; A new tool for your Vascular Access Toolbox	Marcia Wise (US)
I-36	Glue for avoidance of bleeding and bacterial contamination	Gloria Ortiz Milluy (ES)
O-27	Right femoral chemotherapy port-a-cath insertion	Morteza Khavanin Zadeh (IR)
O-28	Over-the-Wire Technique vs. Direct Catheter Insertion in Insertion of Peripherally Inserted Central Catheter	Deniz Kasikci (DE)

FRIDAY 22 June 2018

General Hall (1000) (ground floor)

Session	16 - The patient and the CICC: minimizing complications	Chair: Antonio LaGreca (IT)
08:30 - 09:00	I-37	The state of the art of CICC insertion
09:00 - 09:30	I-38	A new approach to CICC: the ZIM
09:30 - 10:00	I-39	Intraclavicular approach in 2018: ultrasound access to the axillary vein
10:00 - 10:15	O-29	Intravascular devices and malignant wounds: focus on blood-stream infections
10:15 - 10:30	O-30	Intravenous administration set (infusion tubing) replacement after 4 or 7 days is equally effective to prevent bloodstream infections (RSVP trial)
10:30 - 11:00	Poster session of all even poster numbers during break	

Vandsalen (400) (ground floor)

Session	17 - The patient and the dressing of the exit site	Chair: Carmel Streater (GB)
I-40	Skin Matters: Impact of Hospital-Acquired Skin Injuries in the Adult Patient	Gaston Cartagena (US)
I-41	Skin lesions in children and neonates	Tricia Kleidon (AU)
I-42	Different transparent dressings, different problems	Nicole Marsh (AU)
O-31	Potential contamination of tourniquets used by health professionals in peripheral venipuncture: results from a scoping review	Anabela Salgueiro Oliveira (PT)
O-32	Impact Assessment of Stabilization Devices on CLABSI	Mark Rowe (US)

Carstensen (400) (lower floor)

Session	18 - The patient and the totally implantable venous access device	Chair: Christian Dupont (FR)
I-43	The state of the art of port insertion	Ulf Teichgräber (DE)
I-44	PICC-port today	Evangelos Konstantinou (GR)
I-45	Goodbye, fluoroscopy!	Fulvio Pinelli (IT)
O-33	Patient information after port implantation : all he wants and needs to know. A once failing method can lead to a successful and harmonized protocol indeed!	Seamy Ayadi (FR)
O-34	Introducing the top up catheter care (tucc) box to improve the care of long term vascular access devices (vads) in an acute hospital setting	Jackie Nicholson (GB)

Session	19 - Minimizing extraluminal contamination	Chair: Fredrik Hammarskjöld (SE)
11:00 - 11:30	I-46	Skin antisepsis in 2018: the central role of chlorhexidine in alcohol
11:30 - 12:00	I-47	The importance of choosing the exit site
12:00 - 12:15	O-35	Implementation and evaluation of peripheral intravascular catheter flushing practice: A stepped wedge cluster randomized trial
12:15 - 12:30	O-36	A national evaluation of safety peripheral intravenous catheters (PIVC) in the National Health Service (NHS) (A Department of Health & Social Care Initiative)
12:30 - 13:00	Poster session of all even poster numbers during break	
13:00 - 14:00	sponsored satellite symposium Filters Protect Patients From Harmful Particles	
14:00 - 14:30	break	

Session	20 - Tip location	Chair: Ken Symington (US)
I-48	Intracavitary ECG in 2018	Antonio LaGreca (IT)
I-49	Ultrasound for tip location in adults, children and neonates	Massimo Lamperti (AE)
O-37	Left superior vena cava hemodialysis catheter	Morteza Khavanin Zadeh (IR)
O-38	Comparing one year outcome of PICCs from a dedicated cancer treatment hospital in an emerging economy with published data from developed economy	Narendra Agrawal (IN)

Session	21 - FICC - femorally inserted central catheters	Chair: Evan Alexandrou (AU)
I-50	FICC: materials and insertion technique	Matthew Ostroff (US)
I-51	Which patients will benefit of a FICC?	Sergio Bertoglio (IT)
O-39	Establishing a new standard of care for femoral lines: The mid thigh femoral PICC, indications, case studies and results from a 700 bed trauma center	Matthew Ostroff (US)
O-40	PICC insertion via femoral vein at mid-thigh for patients with superior vena cava syndrome	Linfang Zhao (CN)

Session	22 - RCTs and meta-analysis today	Chair: Evangelos Konstantinou (GR)
14:30 - 15:00	I-52	Do Cochrane documents and other evidence-based documents consider the patient? (panel discussion)
15:00 - 15:30		Fredrik Hammarskjöld (SE) Peter Carr (AU) Marcia Ryder (US) Claire Rickard (AU)

Session	23 - The rare but 'difficult' complication	Chair: Mauro Pittiruti (IT)
I-53	The catheter malfunction due to a fibroblastic sleeve	Antonio LaGreca (IT)
I-54	The PICC that does not come out	Liz Simcock (GB)

Session	24 - Ultrasound approach to the patient and to the device	Chair: Jiri Charvat (CZ)
I-55	Patients assessment by ultrasound: RaCeVA and RaPeVA	Fulvio Pinelli (IT)
I-56	Ultrasound detection of early and late complications	Daniele Biasucci (IT)

Session	Plenary Session 3: The World Perspective	Chair: Ton Van Bortel (NL)
15:30 - 16:15	I-57	Protecting the patient: a multiprofessional, multidisciplinary, international goal (panel discussion)
16:15 - 16:30	Closing remarks Ton van Bortel (NL)
